General Information:

This racing machine by Bill Lomas is one of the most successful and best documented examples in British racing history, as it was developed and raced very successfully by the two-time world champion from 1946 to 1950. Documentation from 1946 to 2019 is available in various books and magazines, extensive in text and many in photographs. It was considered almost unbeatable in the 250cc class from 1947 to 1950 - appropriately so documented. The multiple race and championship victories speak for themselves. -Large report in the MOTORRAD Classic issue 11-2017-
