General Information:

The BMW R 27 was produced until 1966. It took until the 1990s for BMW to bring another single-cylinder machine onto the market. There were no significant differences to the predecessor model of the R26. Our BMW R 27 was originally a government vehicle and has been in private hands since 1986. The R 27 was lovingly restored by a retired two-wheeler dealer a few years ago and has since always been enthusiastically presented at various classic car and motorcycle events. We have german registration papers.
