General Information:

The verifiable history begins with the order on 30.12.1978 from a German Ducati dealer and then continues seamlessly. The first registration in Germany took place on 14.03.1979. The first owner kept his Ducati 750 SS for over 15 years. The further history is documented by original documents. In recent years, the 750 SS has been in collectors hands. We completed a restoration in 2021, which included an engine overhaul. As part of our restoration, great importance was attached to a high degree of originality, even in the details. Of course, the engine number matches the frame number (0758XX). Our 750 SS belongs to the 1976/1977 production cycle with 303 chassis numbers.
