900 SD Darmah

First Registration:

1979

Frame Number:

Mileage:

160 km

KW (HP) ccm:

50(68)864 ccm

Price:

on request

General Information:

The 900 SD Darmah fulfils the high demands on the condition of a restored Ducati king shaft. With desmodromic and electric starter, gearstick on the left side, it is a beautiful touring model that was first introduced to the world market in 1976. The seat bench was designed by Leopoldo Tartarini. There is documentation on the elaborate restoration. A central component of the restoration was the overhaul of the engine with an improved oil pump, Vee Two freewheel clutch, Carrillo connecting rod, 40cc Dellorto and pistons, resulting in a special riding experience.
