1912

Frame Number:

170XX

Mileage:

KW (HP) ccm:

1,8(2,5)380 ccm

Price:

26.800 EUR VAT not separate identificationable

General Information:

Peugeot developed motorbike production at the turn of the century. At that time, there were a large number of bicycle manufacturers who started their motorbike production primarily as manufacturers. Peugeot designed its own engines as early as 1906 and supplied Norton, for example. Our MD 2 was produced in 1911 and 1912 with 380cc engines. The beautiful Peugeot weighed around 55 kg and was said to reach a top speed of 50 km/h.
