General Information:

The industrial designer Giorgio Giugiaro developed the design of the Ipotesi. It may also have been his idea to bring the MV Agusta onto the market under the name Ipotesi (hypothesis). We have a beautiful example with German vehicle documents. In recent years, the MV was part of a collection. With new tyres and a fresh service and the sound that goes with it, it is a rare classic car, because fewer than 2,000 were produced by Meccanica Verghera.
