General Information:

The design by Pininfarina and there the Gamma Coupe was also built. From now on, this Lancia was one of my favourite cars. With the 140 hp boxer engine and a kerb weight of 1,270 kg, the Coupe is well motorised. With a 0 to 100 km/h acceleration of less than 10 seconds and a top speed of almost 200 km/h, the Gamma Coupe was an elegant sports car. Our Coupe is in a very nice condition. Due to the low mileage, the originality could be preserved. Of course, we will have it freshly serviced before delivery.
