General Information:

Falloon writes in his bible that only 150 units were built. Consequently, the 900 GTS is a rarity. Our 900 GTS was brought from England to Germany in 2000 and now has German vehicle registration papers. The number ranges for the chassis number and engine number correspond to the 1978 model year. From our point of view, we can speak of matching numbers. In recent years, the GTS has been looked after by an experienced mechanic who has been working with Ducati engines for many decades and also works in classic racing. His work has paid off, because the 900 GTS runs perfectly.
