General Information:

MOTOM began production in Milan in 1948. MOTOM initially designed and successfully marketed a 50 cc scooter. In 1950, the range was expanded with the Delfino 150. The Delfino remained in the range until 1958, with the Delfino 160 being produced from 1952 onwards. MOTOM created its own designs, giving the company a development lead of almost 10 years. The frame has large-dimensioned tubes and the engine was placed almost under the saddle. Our model is in a very nice restored condition.
