General Information:

The Sport model was also developed during Giacomo Agostinis heyday. It was an entry-level model intended to round off the product range. However, the small-series manufacturers strategic orientation underestimated or ignored the offensive of its Japanese competitors. Today, well-preserved MV AGUSTA motorcycles are sought-after collectors items, as only a small number were produced. Our Sport is in very good condition and original condition, as the restoration was carried out with expertise. Technical features include a 5-speed gearbox, 1-cylinder 4-stroke engine, 18-inch wheels and a weight of around 100 kg.
