General Information:

Our KR-1 is a B2 from the 1989 model year. In the German market, the KR-1 was not offered through the dealer network and so the two-stroke remained a rarity in Germany until today. The B2 already has the engine with K.I.P.S (Kawasaki Integrated Powervalue System). The control system helps the engine to optimise the torque curve. In combination with the E-Box frame and a weight of 140 kg, riding fun is guaranteed. Our KR-1 is in very good condition and equipped with KR-1S silencers.
