ADLER

Model:

Junior MR 100

First Registration:

1950

Frame Number:

4087XX

Mileage:

11.903 km

KW (HP) ccm:

3 (4) 98 ccm

Price:

4.800 EUR VAT not separate identificationable

General Information:

Adler Motorcycle Production in Frankfurt was founded on the development of a tricycle in 1899. In the early 1950s, the Adler Junior MR 100 went into production. With a 98 cc engine and a 3-speed gearbox, fuel consumption at an average speed of 40 km/h was 1.5 litres per 100 km. Adler attempted to capitalise on the start of the Economic Miracle with the development of the MR 100, but this proved unsuccessful in the long term. Our beautiful Junior MR 100 comes from a museum and requires expert restoration.
