General Information:

Veigel roller speedometer, original Magura Zündapp grips, Noris lights, stamped accessories.

This motorbike has had an eventful history. The Zündapp was initially deployed during the Balkan Campaign. It was subsequently incorporated into the Greek Army and stationed at Hellenikon Airport in Greece. In the years that followed, the K 800 was partially restored, ensuring that its authentic condition was preserved. In recent years, our K 800 has been part of the museum's collection.
